C++ Programming
Improving Design Skills

Mostafa S. Ibrahim
Teaching, Training and Coaching since more than a decade!

Artificial Intelligence & Computer Vision Researcher
PhD from Simon Fraser University - Canada
Bachelor / Msc from Cairo University - Egypt
Ex-(Software Engineer / ICPC World Finalist)

Class Diagram and Design skills

- Class Diagram helps seeing the big picture
- Sketch your initial UML diagram
- Start coding your system
  - You will notice a **lot is missing**: Critical variables and functions
- Redraw your final UML
  - Compare and notice differences
  - Ask yourself why I missed them
  - Iteratively learn from your mistakes
  - You are good = when you **bridge the gap** between your first & last design
  - It will take time!

"Acquire knowledge and impart it to the people."

"Seek knowledge from the Cradle to the Grave."
